Public Works Report

Gravel Roads

With the recent snow fall and cooler temperatures, the Winter Gravel Program, which had been halted since January 12th, commenced again on February 11th with gravel being hauled out of the Irwin Pit.

Graders continuously care for all roads for the winter season by having all gravel roads, as per County policy, opened in 96 hours after any significant snowfall event. In addition, graders coordinate with Winter Gravel Program haulers to ensure that appropriate roads are graveled.

Surfaced Roads

Snow-plow operations continue, on a weekly basis, as needed, in order to mitigate any snowfall event.

Snow-Plow Truck Units are being serviced and repaired in anticipation for the next snowfall event.

Maintenance

Lacombe County's winter gravel haul, out of the Smith Pit, began on January 23rd. A total of 35,000 t of ¾" gravel is being hauled out by Lacombe County on a schedule of Monday to Saturday, 7 a.m. to 7 p.m.

The 2019 Bridge Structure Rehabilitation Program has been determined and will begin in the summer, with bridge structures BF 02232 (SE-28-39-4-W5, Withrow Highway), BF 09293 (NE-33-36-4-W5, Wall Street), and BF 79392 (NW-9-37-5-W5, Stauffer Area) set to be replaced.

County signs continue to be installed, repaired, and washed as needed.

Gravel Road Rehabilitation

Staff have begun acquiring borrow agreements and third-party consents for the 2019 gravel road rehabilitation projects.

Staff are being utilized for the Winter Gravel Program.

Road Bans:

Order by the Vehicle Weights Committee of
Clearwater County
Highway Order No. 02/18
Defining Maximum Allowable Weights Permitted
On Certain Municipal Roads
